

I see a bunch of new logos on the RVP website. What's that about?

As of March 1, 2020, [V1 Sports](#) acquired [Right View Pro](#). For the past 25 years, V1 has been golf's leading video analysis software company. V1 and RVP have been friendly for many years – in fact, some RVP products were actually built by V1. Starting in March, the organizations became one and V1 began its journey into baseball and softball.

I have a current RVP subscription. What does that mean for me?

Rest assured, you will experience no changes for the time being, unless you want access to V1's new video analysis tools. The first change you will experience is when you next renew your RVP subscription. New (lower) monthly pricing will then be applied. Additionally, as V1 begins to invest in upgrading and replacing RVP technologies, you will be required to sign up for a support subscription (if you wish to receive support services).

I have an expired RVP subscription, but want the best new video analysis technology.

[Contact V1 today](#) to attend a webinar to learn more about how baseball and softball instructors across the country have used and are starting to use [V1's products](#) to analyze their hitters' swings and pitchers' throwing motion. You can also schedule an appointment with a [V1 Customer Success Representative](#) to get a deep personalized dive into the capabilities of V1.

Can I just stick with what I have/renew a RVP Product?

Absolutely. If you wish to continue to reactivate or use an expired RVP product, contact [Marcela](#) today to re-activate your RVP subscription. When you renew your subscription you'll be billed monthly at the new (lower!) rates.

I am a baseball instructor who cannot deliver (and monetize) lessons due to COVID-19. Does V1 have a solution?

Yes! In response to our present situation, V1 immediately developed the "[V1 Marketplace](#)" to help instructors continue to earn, despite having limited ability to conduct in-person lessons. Contact [Mandy Von See](#) if you'd like to learn more – V1 can set up your academy and have you ready to earn immediately.

Wait a minute.. isn't V1 a Golf Company?

V1 got its start 25 years ago in golf. However, V1 has clients that use its video analysis software for a variety of purposes beyond golf, including: basketball, billiards, bowling, boxing, cricket, curling, dancing, disc golf, eyebrow/lash artistry (really!), diving, fishing, football, gymnastics, horseback archery, karate, lacrosse, physical therapy, rugby, skiing, snowboarding, soccer, strength training, squash, swimming, tennis, track and field, volley ball, and wrestling.

Unlike in regards to some of the above uses, V1 is making a committed effort to rolling out a product line which specifically addresses the needs of baseball and softball instructors and players.

What is V1's baseball/softball plan?

Learning from the tremendously experienced staff at RVP, including Don Slaughter and Marcela Hammond, V1 has begun work to customize and upgrade its software products to be best-fit for

baseball and softball analysis. Please keep checking back for further updates. If you'd like to participate in this process and help V1 deliver the best possible product, V1 is always looking for feedback from instructors who know their business best. Please contact [Alex Prasad](#) if you would like to help.

I have RVP hardware, but like V1's software. Is the RVP hardware compatible with V1 software?

Presently, many of the RVP Cameras are not compatible with V1 software. Our present recommendation is that an instructor use an iPad (with [tripod](#)) or iPhone to capture swings from his/her client if you are unable to acquire V1 hardware. However, V1 is working on system solutions and will be rolling out those plans in the near future.

What are the new RVP subscription rates?

Teammate - \$4.99/month

Team Basic - \$9.99/month

- Includes Teammate

Team Pro - \$29.99/month

- Includes Team Basic + Teammate

Team Pro i - \$49.99/month

- Includes Team Pro + Teammate

Stadium Edition - \$119.99/month

- Includes Team Pro I + Teammate

Support (new) - \$9.99/month

How long will V1 support RVP Products?

V1 plans to support RVP products up to December 31, 2021. [Marcela](#) has joined the V1 Team and will continue to be your primary contact regarding RVP products. If you have a current subscription, this will work as it always has. If you have an expired subscription, wish to renew or sign up for the first time and want support, the new support fee will apply.
